Community Banking: Why It's a Wonderful Life

As the holidays approach, Mayville State Bank would like to share some of the wonderful reasons we are grateful to be a community bank. Just like George Bailey in the classic tale, *It's a Wonderful Life*, there's countless people that our independent, locally-owned community bank has been honored to help and serve since 1885.

It's all About the People: Unlike the big banks of America, our business prides itself on putting people first, making the success of our customers the bank's number one priority. Just like the old Building and Loan, Mayville State Bank strives to help you make your home ownership dreams a reality.

Growing a Small Business: We succeed when you succeed. Just as George Bailey invested funds in Mr. Martini's home and business, Mayville State Bank is here to offer advice and financing on your next home or commercial project. We want to help you and all of our hometown communities grow, just like Bedford Falls.

Built on Long Lasting Relationships: The movie's guardian Clarence, was a very wise man saying, "No man is a failure who has friends." At Mayville State Bank we know that building relationships for a lifetime is just as important as helping with your finances. If you have questions, we're here to help.

Community Backed: Instead of being underwritten by Mr. Potter, or other national big banks, our bank is built directly upon the needs and wants of the communities we serve. Our team of local employees call this home and dedicate themselves to building up their communities.
